

CASE STUDY

Stacey Arthur

BTEC National Diploma
in Art and Design

“I would definitely recommend Art and Design at Braintree College – the course has been a great way to express myself!”

Introduction

Stacey Arthur left school to start student life at Braintree College but not before doing her homework on the most appropriate college for her needs. Her final decision on where to study was based on who could offer her the best facilities and the right environment to succeed. Stacey comments: “I could not find a better college than Braintree College when it came down to the facilities available for art and design; best of all we have individual work stations.”

Achievement

Stacey was close to completing her BTEC National Diploma when she was approached by the Manager of George Yard shopping Centre who commissioned her to design information boards promoting Braintree and Bocking Public Gardens. This was a task which would stretch an experienced designer but, with the support from her tutor, Stacey enthusiastically embarked on discussions with the Manager regarding colour and design.

Stacey will definitely have left her mark not only as a talented student at the College but will have her name seen by visitors and residents as an emerging artist on the new information boards at Braintree and Bocking Public Gardens!

The Future

Stacey is looking to continue her studies at Braintree College and will enrol on the BTEC Foundation Diploma in Art and Design. She is also looking to the future at University courses, in particular those that offer 3D Craft and Design.

Stacey is enthusiastic regarding her future and after graduating she hopes to embark on a career in design, but also has a longer term ambition to teach.
